

How To Install your Procreate Grutbrushes 'Live' from the website

To get your brushes visit <https://www.grutbrushes.com/procreate-brushes/>

As long as you are [logged in to your account](#) and your membership has not expired you will see all the brushes and a download link to download each one.

1. Visit the [members brushes page](#) on your iPad
2. Tap on the "download" button under the brush you want to install
3. Choose "open in Procreate" (Safari) or "Share to Procreate" (Chrome) and Procreate will open with your brush installed and ready to paint with!

The screenshot displays the 'Procreate Brushes' website interface. At the top, it says 'Welcome to GrutBrushes Procreate Unlimited! (click for news)'. Below this, there are four brush cards arranged in a 2x2 grid. Each card features a brush sample image, the brush name, a 'Download Procreate Brush' button, and a user review rating. The 'Low Pearly' brush card is highlighted with an orange circle around its 'Download' button, and an orange arrow points from a yellow text box above it that says 'Tap here to download/install'.
